at

Pastoral Centre, Church Road, Nenagh.

**FREE**

*Speaker*

**FREE**

*Nuala Madigan, Education Officer,*

*Irish Peatlands Conservation Council.*

## Reasons to Compost

- Food and garden waste can be put in a composter.
- Soil that is produced is rich in nutrients for your yard, it can be put right onto your grass, garden, or flower beds.
- It is also *much* cheaper to make your own compost than to go to the garden centre and buy it.
- The soil is a natural fertilizer, and can remove the need to use chemical fertilizers. This is safer for the environment, and can save you money.
- If you have children, it is an excellent educational opportunity for them!

Organisers .....

North Tipperary County Council,  
Nenagh Community Allotments
